

Four Leaf Clover Handprint

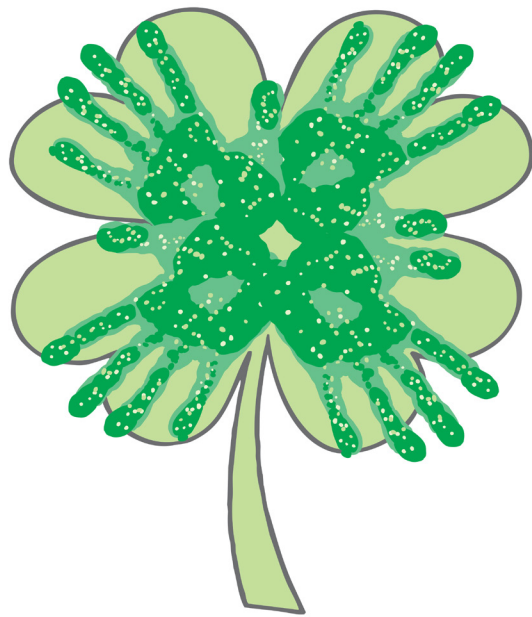

You will need:

A4 card

scissors

green paint

green glitter

Instructions

1. Cut out the card template attached.
2. Next, paint the stem of the clover.
3. Now, get the children to paint their hand using the green paint. (This should be the opposite hand that they write with so they can use the paintbrush correctly.)

4. Get the children to place the heel of their hand at the centre of the clover so that their fingers are facing out towards the edges of the leaf. Now press the whole hand down firmly.
5. Repeat step four, three more times until all four leaves have a handprint on the them.
6. Finally, sprinkle glitter on top of the handprints while the paint is still wet.
